Applicant's election without traverse of claims 1-7 and 15-19 in the reply filed on 8/14/2006 is acknowledged.

Claims 8-14 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 8/14/2006.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 15-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Vild et al. Vild et al, in the claims for example, teaches a molten metal submergence device including a vortex breaker in the form of a ramp, a submergence chamber with an inlet on a side wall thereof and an outlet showing all aspects of the above claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gordon et al'583 is also cited as a further example of prior art molten metal submergence systems.
